PROFILE

I am a database developer with experience working in a banking environment. I design and maintain solutions focused on stability, data quality, and performance. I'm interested in Data Engineering with Python and building ETL/ELT pipelines, as well as containerization and cloud solutions. I'm looking for a role where I can grow in the Data Engineering direction and work on data processing.

WORK EXPERIENCE

Pekao SA Bank 12.2021 - PRESENT
Oracle Developer

- Development and maintenance of the banking ERP application in the Oracle environment.
- Creation and optimization of PL/SQL packages for internal banking systems.
- Design and modification of database objects (tables, views, indexes).
